his Majesty's Council and Commander in Chief of the said Province.

May it please your Honour,

WE his Majesty's most Dutiful and Loyal Subjects, The Members of the Council for the Province of *New-York*, are highly pleased with this Opportunity of Returning your Honour our unfeigned Thanks for your Seasonable Speech.

As we are met with Hearts intirely disposed to consult his Majesty's Service & the true Interest and Quiet of the Province, so in all our Debates and Resolutions we are Determined to Conduct our selves with Moderation. And we have the greatest Reason to expect from your Honour's known Wisdom and Prudence, to see a Period put to those unhappy Divisions which have sprung up amongst us, and have industriously been fomented by the wicked Artifices of some Factious and implacable Spirits, who in order to gratify their own Piques and Resentments have put all at Stake, and done their utmost to throw this Colony into the most fatal Convulsions.

Your Honour may be assured, that we shall persevere to support his Majesty's Honour and Authority, and with Hearty Zeal and Unanimity endeavour to promote the Peace and Prosperity of the Province, and most chearfully concur in all Measures which may be conducive to the common Good.

By Order of Council,

James De Lancey, Speaker.

To which his Honour was Pleased to return the following Answer, viz.

Gentlemen,

I Thank you for this affectionate Address, and am Glad of every Opportunity to declare that as I have nothing more at Heart, than the Support of his Majesty's Honour and Royal Prerogative, It shall be my constant care to consult both. And I promise my self from your Moderation, Council and Assistance, that they shall soon see a period put to the unhappy Divisions that have too long Subsisted.

Philadelphia, October 28.

We have the following remarkable Account from *Salem*, That two Men having been Partners in cutting of Staves, the Wife of one of them conspired with the other to kill her husband; but her Heart failing her when the thing was to be done, she run out of the house and cried *Murder*, upon which the designed Assassin was taken and committed to Prison. This enrag'd him so against the Woman, that having broken out in the Night preceeding the Day of the Fair, he went and found her at the House where she liv'd, stab'd her in several places in the Body with a clasp Knife, and having left her for dead, he came back to the Prison-door in the Day-time, and made his Appearance in the Fair, all bloody, with the Knife in his Hand, declaring *that he had taken his Revenge and kill'd the B----h, but that no body should put him in Prison again, tho' he would go in himself, if the Sheriff would toss him the Keys*: Nobody caring to go near him while he held the Knife in his Hand, they persuaded him to clasp it, and then they seiz'd him and put him in. The Woman was not dead, but it's thought she cannot recover. The Man has endeavour'd to kill himself with the Knife, but it meeting with the Breast Bone, he only cut and mangled himself in a miserable manner.

Antigua, October 24.

SIR,

YOU can't expect a long Letter from one who hath had but two Nights sleep since the 17th Instant, occasioned by the providencial Discovery of a Plott among the Negroes here, for a general Massacre. As Coll. *Lucas* sails in this Ship for your Place, he will give a better Account of same than I can by the writing.

It was carried on by the very top Negroes of this Island, and such as were indulg'd in such Liberty that they kept one or two Horses a Piece, and were so entirely trusted by their Masters, that it was with very great difficulty, any Crime was believ'd against them, and if it had not been for the Industry of Mr *Arbuthnott*, the Discovery would have been quash'd, but now the Proofs are plain, and Executions pretty frequent, 3 of them have been broke on the Wheel, and several burnt: On a Ball Night one of the principal Conspirators who would have undertaken the building of the Seats at any Rate, he being a Carpenter, was to have convey'd some Gun powder under them, and blown up the Company, in this Confusion the Town of St. *John's* was to be attack'd in 4 different Places, by the 4 principal Conspirators, each heading a Body of 300 Negroes with Bills and Cutlasses, for they said Fire Arms would give too great an Alarm, and difficult to get, but then they should soon have their Masters What Success so well laid a Scheme, would have had is to plain, had not divine Providence interpos'd

By private Letters from *Philadelphia* we are informed that the Small Pox is in that Place.
